INDIA'S FIRST LEAD-FREE PIPING SYSTEM

Astral Aquarius pipes are non-toxic and lead-free which makes them a safe material for potable water. Astral Aquarius uPVC plumbing system utilises NSF approved one-step solvent cement, specifically formulated for the use. Astral Aquarius uPVC solvent joint plumbing system makes its pressure bearing capacity twice than that of the threaded pipe.

LEADING THE

LEAD-FREE PIPE MOVEMENT

Lead (Pb on the periodic table) is one of the most naturally occurring elements on the planet. With little or no known biological benefit to humans, lead causes a lot of damage and leads to poisoning on exposure.

Lead can easily leach or dissolve in water from transportation pipes, which can be fatal. High blood lead levels in children can cause consequences which may be irreversible including learning disabilities, behavioural problems and mental retardation.

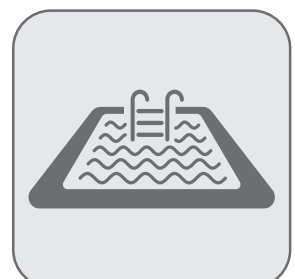

The world over, lead-free piping is the way forward to transport potable water. Something we've been doing at Astral Pipes for over many years now. Our lead-free pipes have exceeded all quality benchmarks and will continue to be one of our bestselling products.
